OUR 1920 LIST OF
NEW AND STANDARD ROSES

One-Year Roses

Vigorous Root System of Kavan Roses—The Best in California

Owing to favorable climatic and soil conditions our roses possess a vigor and a robust root system that puts them in a class by themselves. The cool fall and winter weather prevailing at the base of the San Bernardino range of mountains allows the plants to become dormant, which renders them hardy and puts them in an ideal condition for transplanting, and insures a subsequent strong growth and free blooming qualities.

Roses, field grown, two years, 50c each, $4.50 per 10, except where noted, your selection.

Roses, one year, 50c per dozen, our selection.

Roses, one year, $1.50 per dozen, your selection.
